- New fluted design for increased casting stability
- Resistance cavities aid hooking properties
- Finished in Trans Khaki colouration
- Shaped to accommodate the Edges Angled Drop Off Run Ring to ensure the lead hangs flush to the float
- Supplied with a boom that incorporates an Edges Angled Drop Off Run Ring at one end and an Edges Heli Drop Off Bead at the other
- The unique design of the boom means you can choose to eject the lead (without losing boom) or keep the lead depending on how much weed is present
- Angled Drop Off Run Ring enables you to swap between using a boom and not using a boom without having to cut the line and re-tie the set-u
- Also features unique anti-tangle cavity, into which you can place a small piece of rolled up dissolving foam, which you can then nick your hook into - this will help to reduce the chances of your hooklink tangling on the cast and as the float rises through the water
- Supplied with a ball bearing swivel to reduce hooklength twist
- Also supplied with Trans Khaki Short Anti-Tangle Sleeve
