Balzer Colonel Alive - Minnow

Balzer Colonel Alive - Fire Shark deceptively real-looking soft bait with moveable tail fin and "Rattl'n Body" (balls inside ensure rattle-noise). The new Colonel Alive combine the advantages of lures and soft baits. By the shovel and the incised soft body of the Alive meanders like a real fish through the water ... a unique sight! The steel balls in the body additionally provide ample wheel. Another great advantage: The Alive is made of soft Gummematerial and is therefore almost always attacked a second time at a malocclusion because the Predator is not / hardly draws suspicion.

- Extra slow sinking!
- diving depth: 0,5 - 2 m
