

# Behr Trendex artificial Blood Worm 4cm 15pcs

Behr Angelsport

Product number: BF-9065001

Realistic blood worm replication  
for fishing for non-predatory fish.

2,29 €\* 2,29 €

The blood worm, also called red worm or dungworm, is a great hook bait for all kinds of non-predatory fish. Especially as a combination bait in connection with maggots, it is particularly catchy when fishing for bream, tench and carp.

The Trendex Rotwurm is very faithfully modeled on the original. It is super soft and can be easily attached to the hook.

Worm length: 4cm / package content: 15 pcs.
