DEKA ROUND-JIG SILVER 4/0

Our standard Jig that offers everything that you expect from a jig head:

- Extremely sharp and durable hooks (quality of VanFook, made in Japan!)
- Clean deburred lead head
- Highlighted weight label
- Free Lead hook shank without nose
- Integrated bait holder

The DEKA Jigheads are produced in collaboration with Japanese hooks specialist VanFook, because only with excellent hooks as the basis, also excellent Jigheads be realized.

The short hook shank of the hook VanFook allow pronounced bait action and the displacement of the hook tip to the eye at the same time ensures a safe "Hook Setting" - because of the sharpness of this is often done without stop solely by the string tension.

Due to the lack of lead nose on the hook legs, the DEKA Jigheads suitable for sensitive rubber bait because they are no longer bursting. The bait holder from wire at the bottom of the hook shank, nevertheless reliably prevent peeling off the rubber bait during casting and bite, so the bait on the hook holds very long.

Important note: The bait holder fulfills its purpose even if the rubber bait is to be drawn by hand! This can cause damage to the bait. If one wants to change the bait more often on the same jig head or separate storage after use, you can also compress the hook holder easily or remove the barbs.

Which hook size fits which bait?

- DEKA Jig 1/0: Bait Breath TT Shad 3.2 Inch, Fish Arrow Flash-J Shad 4 Inch
- DEKA Jig 3/0: Bait Breath TT Shad 4 Inch, Fish Arrow Flash-J Pintail 5 Inch
- DEKA Jig 5/0: Bait Breath TT Shad 4.8 Inch, Fish Arrow Flash-J Shad 5 Inch
