Mann's Heavy Duty Stretch 25+ lure. This is an Original series crankbait, which is 100% "Made in USA". The colours are sold out and hard to find.

The Stretch 25+ is part of Mann's revolutionary "Depth Plus" series that incorporates an innovative lip design with a front kicker plate (Davis System Lip) that allows the lure to dive almost vertically to a depth of over 25 feet using 17 pound test line on an average cast while offering much less than normal crankbait resistance.

The lure is equipped with heavy duty rustresistant saltwater hooks and hardware. The bait is designed to run at operating depth of 25 feet on 17 lb. test line at 150 feet from boat. This bait will dive almost vertically to operating depth and will track true at trolling speeds up to 10 knots.
