• MINN KOTA QUICK RELEASE BRACKET MKA-16-03

For quick, easy removal of your Ulterra, Terrova, PowerDrive V2, PowerDrive or Pontoon PD V2 bow-mount trolling motor. Extruded aluminum design features a side screw secure locking system. Ultra-tight tolerances eliminate bracket movement and noise.

Allows trolling motor to be quickly removed from and reattached to boat deck. Sidescrew design attaches trolling motor to top bracket and slides into deck-mounted bottom bracket, secured with tightening screw.

- Solid, anodized aluminum construction
- Includes mounting hardware
- Brackets can be secured with padlock (not included) for additional security
- Compatible with Ulterra, Terrova, PowerDrive, PowerDrive V2, PowerDrive Pontoon and Deckhand 40
- Designed for use in freshwater
