

# Native Watercraft Fishing Kayak Slayer Propel 12.5 Max

Native Watercraft

Product number: NWC-SP12M

Armed to the teeth fishing kayaks for pros.

0,00 €\* 0,00 €

The new Slayer Propel 12.5 Max is the update within the popular Slayer series.

In contrast to its siblings, the 12.5 Max has a motor resp. anchor mount on the bow and stern, which gives it its striking shape. 2 horizontal rod holders with tip protection, 2 small embedded tackle boxes and a large hatch in the bow were also included in the standard equipment. The new Propel Drive, the improved mechanical rudder and the new High/Low Seat offer maximum comfort even on longer tours.

In addition, of course, the standard equipment of the Slayer series is also installed:

- Storage spaces with bungees in bow and stern
- Equipment rails to the left and right of the paddler
- Paddle holder
- Waterproof lockable hatch in the rear
- Recess in the hull for a transducer
- Modified tunnel hull for extreme stability and precise tracking
- Premium standing pads for a secure stand
