

Zalt 20 Lure 37 Pike

Zalt

Product number: Z20-FS37

The Swedish mega pike bait in a new size.

20,99 €* 20,99 €

The successor to the Zalt 19 comes with everything you need to hunt for large pike!

No pike can withstand its massive, strikingly shaped body, and thanks to its outstanding flight characteristics and high weight, you can fish exactly where the big pikes stand.

While cranking, the Zalt 20 unfolds its irresistible bait game. Add in additional soulful twitches to get the absolute maximum out of the Swedish evergreen.

However, the Zalt 20 doesn't have to be ejected - even when trolled it unfolds its full bait game and dives in depths of up to 5m in the sinking version. So if one of the popular XXL pike is hiding in the depths or under obstacles where the current isn't that strong, you will still find it and make it curious.

Don't be surprised if you are suddenly in a drill with a catfish or a capital zander. These predators also love the great Zalt and hardly miss an opportunity to attack it.
