

3 Waters Kayaks Big Fish 103 Pedal Fishing Kayak

3Waters

Product number: 3W-BF103

Latest development in the kayak sector: kayak with ProFish pedal drive system

2.299,00 €* 2.299,00 €

The Big Fish 103 is the newest edition to the popular Big Fish kayak series. Like its older sibling, the Big Fish 108 was specially designed to accommodate the Pro Fish Pedal Drive, featuring the intuitive 8 Ball steering system and the oversized Beaver Tail rudder for the ultimate hands-free propulsion experience. Combine that with our Cathedral trimaran hull design, the Big Fish 103 offers industry leading stability whether you're fishing for trophies or pedaling in leisure with friends and family. The Big Fish 103 also features the EZ Rider Seat offering all day paddling comfort with multiple sitting and standing configurations – high, low, recline and flip away, which doubles as a lean bar when standing.

At a smaller 3,12m (10' 6") but with a capacity of 180kg (397 lbs), the Big Fish 103 is the pedal kayak that can be your primary fishing vessel or a comfortable and easy to use recreational boat for a relaxing day on the water and for the whole family to enjoy. The weight is 49.9 kg without seat and pedal motor.
