

Fox Armpoint Super Wide Gape Single Hook Shank Hooks

Fox

Product number: FX-ASWGS

A unique wide gape hook with a lengthened shank.

6,49 €* 6,49 €

The Wide Gape Long Shank has been developed with the intention of creating the ultimate modern carp hook, combining key elements from the greatest fish catching patterns, for use on the most popular rigs around today. We started with a long shank hook, renowned for its hooking properties, we added to that a slight, but sweeping curve, this ensures the hook will turn in an instant once inside the carps mouth, putting it in the perfect hooking position. A wide gape was also required, to give the point as much chance of catching hold as possible. Finally, a beaked point to ensure that once hooked the hook remains in place and the chances of it pulling are reduced. Never have all these elements been combined in a carp hook and the result is deadly! These hooks are perfectly suited to Ronnie/Spinner rig presentations alongside all manner of different bottom bait and popup rigs.

- Completely unique pattern/design
- Combining "critical elements" of some of the very best hooks
- A long shank, a wide gape and a beaked point
- The long shank encourages the hook to turn in the carps mouth
- The long shank features a slight curvature adding to the speed at which the hook turns
- The wide gape ensures the point is as free as possible to catch hold
- The beaked point helps the hook remain in place during battle
- Beaked point also makes it perfect for fishing bottom baits on hard gravel
- Perfect for Ronnie/Spinner rigs and great for bottom bait and alternative pop-up presentations
- Super sharp
- Arma Point technology
- Slightly in-turned eye to further exaggerate the sweeping shank
- Non-reflective dark coating
- Increased wire gauge
- Super strong yet lightweight XC81 Vanadium forged steel construction
