

Gunki Spinning rod Finesse Game

Gunki

Product number: GU-FNS-GMS

4 finesse rods designed for precision and sensitivity.

from 53,99 €* 53,99 €

Welcome to the world of finesse fishing with the new generation Gunki Finesse Game. Four models, all designed for fine fishing (drop shot, microjig, small lead heads, ...), where precision and sensitivity are crucial. The lengths and casting weights correspond to the shore fishing (street and rock fishing) or the boat and belly boat. Gunki opted for a full-carbon tip because of the performance when casting small baits, the better bite detection and not least because of the speed at first attempt. Within this elegant series in the Gunki style is certainly a model for you. The price-performance ratio is absolutely top, installed are anti-tangle SIC rings, long-leg and micro rings.
