

Illex Freddy 170 CW Swimbait sinking 16,8cm 43,8g

Illex

Product number: IL-FRDY-170

A legend amongst big bass and pike anglers across Europe.

23,99 €* 23,99 €

Our widely imitated but never equalled 'FREDDY' 170 CATWALK swimbait is back in an upgraded version! We have kept the same seductive swimming action that made this bait a legend amongst big bass and pike anglers across Europe. The nonchalant S action on straight retrieves and a seductive stop and go with darts off to either side when twitching. We have integrated two 50lb rolling swivels that can turn a full 360 degrees to help reduce hook pulls when playing acrobatic fish. This dense lure is perfect for distance casting and designed for covering large expanses of water. Ideal for fishing shallow through weedbeds and around structures and snags. By simply adding a John weight to the stomach swivel the lure can be fished deeper.
