The slender, sleek body and small lip generate a nonchalant swimming action at slow speeds, moving sub-surface like an unaware prey fish. Fished faster the lure is more nervous in the water and darts unpredictably when twitched and jerked, sure to trigger a reaction from any following predator. The BATTLE MINNOW 80F has a weight transfer system to help gain extra meters on the cast. Great for light fishing for perch, asp, trout, chub, black bass and pike.
