

Jarocells Portable Storm Case Lithium Battery 24V 50Ah

Jarocells

Product number: JR-BTP50.24

Water- and shockproof lithium battery in a convenient transport case.

from 1.499,00 €* 1.499,00 €

The JARO-BTP50.24+12 Portable is a real powerhouse with a 24V battery. The housing is also equipped with a 24V to 12V converter, so that in addition to driving a 24V motor, 12V devices can also be connected at the same time.

In this case, the battery is often used for installation in boats, from small sloops to sport boats. Like all batteries in this series, the battery is built into the shock- and waterproof Storm Case.

The JARO-BTP50.24+12 has a usable capacity of no less than 1.2kWh, whereby a lead battery with 50Ah and 24V can only deliver 0.65kWh. At 14.8kg, the housing is easy to handle. The converter to 12V can deliver 20A.

Connections: Anderson Connector, 12V Cigarette Lighter Connector, 2 x USB
