

Dega Q.B.S. Beads for Secondary Lures

The QBS-Beads are the sensational advancement of the legendary cross-bead pearl. The main advantages of the intelligent generation pearls are the sensational ease of use and versatility. The preassembled Secondary Lures on sidearm can be exchanged within seconds "click" by simply using the QBS-pearl. The Secondary Lures moves completely naturally, as the pearl can both rotate freely around the main line (360 °), as well as about its own axis of Secondary Lures. The ideas encoder and "perfectionist" in terms of QBS-Beads are world champion Heiner Grossmann has accompanied the development and ultimately allows.
