Lurante Pioneer Pedal 430 single-seater kayak with pedal drive.

Our brand new Lurante Pedal Pioneer 430 is one of the few inflatable sit-on-top kayaks on the market with pedal drive and adjustable hand steering.

The assembly and disassembly of the single-seater is quick and uncomplicated and can be done in just a few minutes. With a weight of just 17 kg, the kayak can be rolled up, stowed effortlessly in an included backpack and transported.

The solid construction of durable drop-stitch material gives the Lurante Pioneer Pedal 430 excellent dimensional stability and rigidity, similar to hard shell kayaks. The wide hull also gives the kayak excellent balance and very high tipping stability.

Thanks to the smooth-running pedal drive, which can be installed and removed without any tools, the kayak can be driven forward and backward effortlessly and quietly. The kayak is steered with the integrated hand steering system, which is suitable for both right- and left-handers. With the adjustable seat, everyone can find their optimal seating position for a pleasant pedal ride. Equipped with two rod holders and various storage options for equipment, nothing stands in the way of relaxed fishing on rivers and lakes.

Inflatable kayak features:
