River2Sea's evolution of the original Stand'n Yabbie transforms into the Mad Yabbie soft crayfish. The soft plastic's double-ribbed body provides the perfect amount of water displacement, while it easily maneuvers through vegetation. Both the small claws and larger tentacles deliver a continuous, lifelike pulse action in the water.

The twist on this Yabbie is its versatility. You can rig it for punching/flipping, jig hook, swimbait hook, or use the Mad Yabbie as a trailer.

The Mad Yabbie is 11.5 cm long, ready-made for a 4/0 or 5/0 hook.
