

Salmo Rail Shad Lure sinking 6cm 14g

Salmo

Product number: SAL-RLSHD-6

New lure especially for vertical fishing.

13,49 €* 13,49 €

The Salmo Rail Shad was designed primarily for vertical fishing, which is easy to identify on its line attachment. This construction ensures that the Rail Shad rapidly sinks into the depths with the tail first and then immediately aligns horizontally when fishing begins. The feather on the rear treble provides the extra portion of attention.

Of course, the Rail Shad can also be casted. With his running behavior and tail feather, he attracts every curious predator nearby.

- Length: 6cm, Weight: 14g
- Available in 6 catchy colors
