VMC Swinging Ned Rig Jig Head

Looking for a jig head that will take your Ned Rig fishing technique to the next level? The **VMC Swinging Ned Rig Jig** is the answer. This bullet head with a swinging hook has been specifically designed for Ned Rig fishing to give you unbeatable performance.

Natural movement, incredible action:

The innovative design of this jig head allows your lure presentation to move more naturally, impressing with a stunning crawling action. This combination makes your lure irresistible to predatory fish.

Adjustable fluorocarbon keeper:

With the **VMC Swinging Ned Rig Jig's** adjustable **fluorocarbon keeper** your bait will stay securely in place without slipping. Enjoy the flexibility to adjust the bait as needed without compromising on hold.

Perfect balance, long casts:

Thanks to the **3° offset tip** this jig head provides the perfect balance for longer casts and improved bottom contact. Cast further and reach deeper waters while enjoying fine presentations without your lure losing its alignment.

Ready to optimise your Ned Rig technique? Get the **VMC Swinging Ned Rig Jig Head** today and experience the difference in action!
