Product number: ZK-400004

Zeck Zander Wumme spinning rod, developed with Sebastian Hänel for zander fishing.

Weight: 0.142 kg
159,95 €* 159,95 €

When "zander wobbling" you inevitably need a lighter rod tip, which ensures a very good lure feel when slowly cranking in the subtly running wobblers. Since the bites often come just before the feet, a fairly soft action in the front blank area is also an advantage. The ZANDER Wobbler is made for this type of fishing. The tip-accentuated sensitive blank has a strong backbone. This makes it easy to drill even big fish in strong currents. The Wobbel-Wumme is extremely light and has the ideal length to let your wobbler "run" parallel to the shore in front of the rock pack.
