VLADIMIR-Twister

One of THE most successful baits in the trend of the times – and a secret weapon for predatory fish! Vladimir-Twister with his fish like body hape in 10 seductive colors and in 3 perfect sizes from 9 cm, 12 cm, and 15 cm – a fish catching champion among artificial baits. The sickle tail rotates with the least of water pressure like a ships propeller, and the resulting compression and stimulation waves attract predatory fish immensely. Integrated "airholes" in the tail create whirling oxygen movement.
