Based on the design of the famous Fox Swinger MK3, but 45mm shorter and with a 40% smaller head, this swinger impresses with its matt black arm and a matt black, 16g heavy weight, as well as the brightly colored head available in 7 colors.

With its easy-to-use line-picking system, Black Label Micro Betalights pick-up slot, and rubber bumper on the underside of the swing head, the Mini Swinger is a great allround bite indicator for fishing with tight, semi-loose, or limp laces.
