The new Fox Brollies in khaki and the unique Fox Camo are based on the classic Fox Original Brolly. They are perfect as sun and rain cover on short day trips or as a privacy screen if you're entertaining visitors while fishing or swimming.

The two 45" models have a bendable bar, so you can also angle the umbrella. The rod of the 60" variant can be completely disassembled and screwed in an extra thread, so that it reaches an angle to the bottom, where the 2 rear pegging points can be attached to the ground so that it won't fly away even in stronger gusts. In this position, the rod won't get in your way if you sit under the brolly.
