

Matrix Alloy Method Feeder

Matrix

Product number: MA-GFR1XX

The Matrix Alloy Method Feeder offers ultimate versatility with an innovative interchangeable system and Quick Bead for effortless fishing.

3,49 €* 3,49 €

Master feeder fishing with the Matrix Alloy Method Feeder feeders

Our Matrix Alloy Method Feeder feeders set new standards in feeder fishing. With a variety of sizes and weights, from small to large, they offer the ultimate versatility for your fishing needs. The innovative interchangeable system allows you to switch between different weights quickly and effortlessly, while the removable base makes customising and changing baits a breeze.

The newly developed Quick Bead makes it easy to mount and dismount your leaders without any fiddling. Each feeder is made from high quality injection moulded alloy, ensuring optimum weight distribution and durability. The low profile, unobtrusive design minimises the risk of tangles and ensures efficient bait placement.

These feeders are perfectly compatible with the Matrix Method Former to ensure a seamless and effective fishing experience. The weight-forward design improves casting accuracy and enables precise bait placement where it counts.

Discover the future of feeder fishing with our Matrix Alloy Method Feeder feeders and take your fishing experience to a whole new level.
