## Dynamite Baits Hit n Run Pop-Ups: Revolutionary carp baits with unique flavours

### Discover the power of essential oils and unique flavours

The **Dynamite Baits Hit n Run pop-ups** are more than just ordinary carp baits. They offer a selection of specially developed flavours based on essential oils. These flavours are carefully selected to ensure maximum attraction to carp, bream and tench. The combination of natural scents and intense flavours makes these pop-ups an essential part of your fishing tackle.

### The booster - a secret for effective attraction

Each pack of **Dynamite Baits pop-ups** contains a booster that enhances the effect of the essential oils. This booster not only intensifies the odour, but also increases the visibility and attractiveness of the bait in the water. Anglers who use this booster report faster and more frequent bites, which is particularly beneficial on short fishing trips.

### Variety of colours for every water condition

Choose from pink, yellow, white and red colours to best suit different environments such as clear water, weed, gravel, mud and clay. These colour variations are not only attractive to fish, but also tactically effective for different water conditions.

Rob's fishing style is simple. Fast sessions and fast bites. The colour chart will help you choose the best lure

colour for your session.

- White for deep water and mud
- Pink for clear water and weed
- Yellow for clear water and gravel
- Red for water and mud
