Groundbait for angling for bream.

4,49 €/kg

Weight: 1 kg

4,49 €* 4,49 €

Sticky competition feed for angling for bream. This attract feed makes the bream go crazy. The bream can't resist the particularly sweet smell.

Mondial F. Bio Mix

Extremely sticky and long acting competition food for all big fish, especially bream. The sweet smell and taste of this fine-grained mixture are irresistible to many fish species and can be used in many waters. After moistening twice with 1.4 litres of water at 15-minute intervals, the feed is passed through a fine, medium or coarse sieve, depending on the water. Everywhere, Bio Mix has a long-lasting effect. Bio Mix can be combined with all Mondial-F feeds. Without a doubt the most widely used in Belgium.

Mondial F. Score Brassen

Very nice feed with yellow-orange colour for fishing big bream. The feed is heavy, sticky and enriched with sweet biscuit that works slowly but steadily on the bottom. Ideal for the large feeders on the pond or river. The feed must be moistened in several steps with 0.75 litres of water. Score Bream serves as a basic bream feed for many competition anglers in Holland and Belgium.

Mondial F. Black Bream

Black food with a pleasant aroma, especially for bream. Particularly suitable for the cooler season. This bait works very well on the bottom and is especially suitable for lake fishing. When used in running waters, black clay must be added to increase the binding power. Prepare with 0.25 l water and leave to infuse for 15 min. Then rub through a sieve and you have a perfect bream food.
