100% natural! Just add water!

Weight: 0.004 kg

7,90 €* 7,90 €

Freeze-dried Sea Bait. 100 % natural, tasty-tough-reliable, you are receiving the best preserved bait on the market!

- Huge success rate
- No freezer required
- Just add salt or fresh water
- The fish love them and they can't resist
- All enzymes, hormones, taste, smell preserved
- The bait can be stored in your tackle box, car or boat
- It is hard for fish to steal the worm off the hook
- All 100% natural, nothing added, nothing taken away
- The worms keep their natural texture and appearance
- The JENZI worms are exactly the same as live worms
- Oooopsss!! Wrong !! Sorry!! They last 2 years longer!!!

Application:

You simply rehydrate the bait in fresh- or saltwater to get the best natural consistence. When fishing: place the worms in a small container with freshwater. After they become flexible and ready to be threaded onto the hook, remove from water, but keep the worm moist. Unused dry baits can be kept in the package for the next fishing trip, but must be used within 3-5 weeks. Bag must be closed immediately.
