Our fishing survival kit for emergencies consists of a small, compact and handy box with a high-quality selection of fishing utensils with which even beginners without basic theoretical and practical knowledge can immediately go fishing.

The high-quality components are coordinated and in just a few minutes you can put together a simple assembly for fishing with a float. In case you can't find any natural bait, the survival set also contains artificial maggots and worms. Sufficient spare parts and helpful instructions for tying fishing knots for beginners are also included.

The following premium brands are included in the set:

Stroft, Daiwa, Sensas, Jenzi, Behr

All the advantages at a glance:

- approx. 10% price advantage compared to individual purchase
- High-quality coordinated components from premium brands
- Contains various artificial lures for immediate fishing without live bait
- small pack size
- Suitable for beginners
