Features pegging pins to aid stability

~~20,49 €~~

18,99 €* 18,99 €

This handy windshield provides your stove with essential protection from the wind. By shielding the stove from the wind, it will be more efficient and use less fuel.

- Lightweight aluminium construction
- Comprises 7 hinged panels
- Features pegging pins to aid stability
- Supplied with a handy carry bag
- Windshield - 14cm Height

XL Windshield

This larger version of our popular Windshield is designed for taller standing stoves, such as our new Canister Stove. It features a lightweight aluminium construction with hinged panels and pegging panels for increased stability. It comes supplied with its own carry bag.

- XL Windshield – 24cm Height
