

Daiwa Prorex Boat Net

Daiwa

Product number: DW-15809-BK

Net by Daiwa Prorex

0,00 €* 0,00 €

Extremely strong and strainable boat landing net with a head made of milled aluminum. A 70cm measuring tape is engraved to the 1.2m net handle, which is made of thicker material than usual to guarantee maximum robustness.

The deep landing net is equipped with a special silicone coating, which doesn't absorb any odor and is markedly softer and lighter than common "rubber coated" nets. The fish mucosa is protected perfectly, tanglings of hooks are prevented and the weight is reduced significantly. The EVA-handle additionally offers a hand loop to grab the landing net securely. The big landing net head of 100x90cm is also perfectly suited as landing net at trolling for salmon!

Available in two sizes: 80x70cm und 100x 90cm.
