

Jenzi Kevlar Trace Leader Rig System Catfish 6

Jenzi

Product number: 7175-6

0,00 €* 0,00 €

Kevlar Trace Leader Catfish 6 - pellets have proven to be absolute top bait for catching big catfish. It pushes the hair with the side of the spring ring through the hole of the pellets and then appends this spring ring into the carabiner. The pellets are thus (also known as donut) as a ring offered. Because the pellets are arranged in an annular, the bait by catfish can be more easily sucked in. Optionally, the pellet holder can be used.

All Catfish Rigs are professionally bound to KEVLAR®.
