

Fox Edges Crimp X60 Copper Sleeves

Fox

Product number: FX-EX60

Edges Crimps are designed to help you create neat and tidy loops in your hooklink material, whilst maximising its strength.

4,99 €* 4,99 €

Edges Crimps are designed to help you create neat and tidy loops in your hooklink material, whilst maximising its strength. Using the Edges Crimp Pliers, they can be crimped securely to form a flared end allowing the loop to flow naturally out of the crimp and ensuring the line exits the crimp without any sharp edges. Designed for use with our recommended hook length materials – Edges Link Trans Khaki, Edges Link Illusion Fluorocarbon and Edges Ridgidity. Perfect for creating Chod rigs, Ronnie/Spinner rigs and Combi rigs.
