STROFT GTM Fly Fishing Leader System 470cm small

The best material (STROFT GTM) with the highest tensile and knot strength, with its low reflection is practically imperceptible to fish, has high abrasion resistance, elasticity and suppleness.

Perfectly tuned structural design, in combination with the degressive taper results in highly efficient energy transfer and perfect fly presentation.

The shock-absorbing properties of the butt in combination with the taper aids playing and landing the fish safely.

4 different length 240 cm - 280 cm - 375 cm - 470 cm (7,5 ft - 9 ft - 12 ft - 15 ft).

11 different diameters (Tip from 0,10 mm to 0,42 mm) 7X - 6X - 5X - 4X - 3X - 2X - 1X - 0X - 01X - 02X - 03X.

That is a total of 44 different leaders - the perfect leader for every possible situation: Whether fishing minute dry flies or even the largest salt water flies for the heaviest fish!

Two types of packaging

- large spool: spooled onto large diameter and thereby absolutely smooth.
- small Spool: on small leader boards, which will suit in every pocket and in the STROFT Leader etui.
