Jenzi No Knot Connector Phenomenal! Now, the lure with the mainline be connected without knots. Knots is the weakest link in the fish-man. No more of that. "Knotless" you really replaced the knot! The installation is very simple:

- Bait or swivels points on the upper hook
- Mainline hang in a loop on the hook
- four to five times wrapped around the axle - done!

"Knotless" can be applied to both monofilament and braided lines. Often reduced at braided cords carrying capacity of the cord by up to 50%. With "Knotless" remains the 100% capacity!
