

Sufix Braided x8 Fishing Line 150m

Product number: SFX-GX8-150

Super strong braided line with high abrasion resistance.

from 19,79 €* 19,79 €

The 8-thread construction of thin HMPE fibres creates a super strong, thin braid with high abrasion resistance and superior knot strength. The R8-Precision braiding technology with the high tension weaving process produces a round, supple and smooth braid with a constant diameter and consistent quality. The soft and silky smooth line causes hardly any friction in the rod rings, resulting in quiet behaviour and long, precise casts: Perfect for stationary and baitcast reels.

Product features

- Excellent diameter/load ratio
- Round and smooth mesh
- High abrasion resistance
- Easy handling
- Long throws
