Discover the STROFT FC1 fluorocarbon main line: unrivalled performance for passionate anglers

A masterpiece of fishing line technology

The **STROFT FC1 fluorocarbon main line** sets new standards in the world of fishing. Developed for anglers who don't compromise, this line offers a combination of strength, sensitivity and durability that is unrivalled. Manufactured in Germany, STROFT stands for quality and precision - a promise that is once again kept with the **FC1 fluorocarbon line**.

Unrivalled breaking strain and knot strength

With the highest breaking strain and knot strength ever tested on a 100% fluorocarbon line by the EFTTA, **STROFT Fluorocarbon FC1** exceeds all expectations. These exceptional properties make it the first choice for all types of leaders - and even as a main line if you are prepared to invest in quality.

Advantages that make the difference

- **Abrasion resistance:** Excellent protection against wear.
- **Sensitivity & feedback:** Optimum bite perception thanks to low stretch in the fine load range.
- **Casting behaviour:** Ideal for fly leaders or for baitcaster reels thanks to excellent casting properties.
- **Lifespan:** An investment that pays off in the long term.

- **Visibility/invisibility:** Crystal transparent for almost invisible presentation under water.

Technical specifications

- **Diameter:** 0,10 mm bis 0,52 mm
- **Load capacity:** 1,20 kg bis 18,40 kg
- **Colour:** Crystal transparent (invisible in the water)

Ideal for all fishing methods

Whether you are fishing in freshwater or saltwater, the *STROFT FC1* is ideal for a wide variety of fishing techniques. Its outstanding properties such as knot strength and line drag make it the perfect choice for demanding anglers.

The **STROFT FC1 fluorocarbon main line in 150m** is more than just a fishing line; it is an essential tool to help you perfect your fishing technique and maximise your chances of success. Discover the highest quality from STROFT and experience how this line will transform your fishing experience.
