

# Daiwa big pit fishing reel Emcast

Daiwa

Product number: DW-EMC-ASM

Very good big pit reel with top features at a good price.

0,00 €\* 0,00 €

The **Emcast** combines all features, which are expected of a Big Pit reel – optimal casting distances thanks to the long conical spool, great line capacity and a high retrieve power. The 35mm spool stroke enables maximum distances – depending on the model the Emcast has a capacity up to 530m/0.35mm monofilament. The Emcast offers all that at an outstanding price.

The Emcast SpodŽn Mark reel features a higher transmission rate!
