

Daiwa sea fishing reel Saltiga Expedition

Daiwa

Product number: DW-SLT-EXP

THE fishing reel for hunting the big fish of the ocean like amberjack, gt or halibut.

0,00 €* 0,00 €

The **Saltiga Expedition** is equipped with the latest technical developments made in Japan.

The handle shaft is completely isolated via two MagSealed ball bearings at both sides - no saltwater can intrude into the gear via the axis - the lifespan of your gear thus is optimized distinctly - the appearance of salt crystals is eliminated during normal usage. The Hyper Digigear drive pinion is CNC milled out of one block and withstands also highest strains of sea fishing. The drag knob of the Saltiga Expedition series is made of a special metal composite material which channels off heat and thus protects the drag from getting overheated during the fight with the fish.

The size 5500 with 15kg drag power is perfectly suited for heavy jigging for halibut and cod in Norway, as well as for light fishing for amberjack, GT etc. in the tropics.

The size 8000 has especially been constructed for extreme fishing for yellow fin, GT and amberjack, where beyond extreme drag power (30kg) also great line capacity is needed.

Technological features

- MAGSEALED® body construction
- 13 ball bearings (incl. 2 "CRBB®" and 3 MAGSEALED® ball bearings)
- 2 MAGSEALED® axis ball bearings
- 1 MAGSEALED® line roller ball bearing
- ZAION® AIR ROTOR®
- HARDBODYZ® aluminum reel body
- Waterproof UTD drag system
- CNC cut Hyper DIGIGEAR®
- Infinite Anti-Reverse®
- One-piece AIR BAIL®
- Twist Buster® II line roller
- Forged ABS® II aluminum spool
- Machined aluminum handle

- CNC cut handle knob
- Silent oscillation system
- Rotor brake - prevents unwanted bail turning
- Made in Japan
