

Daiwa Prorex spinning reel LT D

Daiwa

Product number: DW-PRX-LTD

Ultra light spinning reel with lots of power and strength.

0,00 €* 0,00 €

With the 17' **Prorex LT D** series DAIWA presents a new generation of reels – the LT concept enables the design of ultra-lightweight reels, which are more durable and stronger than ever before. The Zaion reel body cares for an ultra-safe housing of the drive and thus guarantees permanently silky-smooth running. The new LT concept allows a drastic reduction regarding weight while increasing the power and robustness at the same time. The 17' Prorex LT 2500D only weighs marvelous 175g and thus is among the most lightweight reels on this planet! The milled Tough Digigear II is made in Japan and offers extreme durability and optimized running.

Thanks to the high precision also thin braided lines are perfectly wrapped on the spool, enabling optimized casting performance. The ATD drag cares for an instant working of the drag and offers optimum drag power. Drag power: 2500/3000: 10kg, 4000: 12kg, 2000: 5kg.
