

Daiwa big pit fishing reel Basia 45SLD

Daiwa

Product number: DW-BAS-SLD

Completely revised and optimized version of the Basia for the European market.

0,00 €* 0,00 €

The new models **Basia 45SLD QD** and **QDX** have been completely revised and now feature many new details especially for the European market. For example the spools of the new Basia reels have been milled somewhat deeper to enhance the line capacity – the new spools now offer space for 300m/0.35mm! The main shaft is made of stainless steel and is considerably tougher than at the previous models. Of course the 17' Basia 45SLD QD and QDX are manufactured in our Japanese factory according to highest quality standards.

The QD-version comes with a real wood handle knob and is delivered including a spare spool.

Technological features

- AIR METAL magnesium reel body
- 8 ball Bearings
- AIR ROTOR®
- ZAION® rotor
- 45mm spool stroke
- Quick drag system (QD®)
- Infinite Anti-Reverse®
