

Illex Ashura Baitcasting Rod Night Shadows B190MH Vertical 7-21g

Illex

Product number: IL-27332

Casting version of the S190MH for vertical fishing.

Weight: 0.096 kg

339,00 €* 339,00 €

The Night Shadows B 190 MH is our casting version for vertical fishing from boat or belly. Very handy and reactive, it is easy to read the soil structure and feel the softest tok of a following fish. The rod is equipped with a soft-tip action, ideal for deep inhalation of the bait and minimizing slips in the drill. The blank is designed for baits of 7 - 35g and therefore well suited for deep waters and currents. A lot of power in the backbone gives security even with big fish. Built with FUJI's top quality components: Alconite micro guides in a spiral arrangement (the cord will not touch the blank during a fight) and FUJI SKTS Skeleton reel seat. Delivery in the embroidered case.
