

Gunki Baitcasting fishing rod Warm-Up

Gunki

Product number: GU-WRMP-C

Beautiful rods that are optimized for their special field of application.

0,00 €* 0,00 €

These generation Gunki rods are an ideal match for the latest trends in artificial bait fishing. Each model has been trimmed to its intended use and fulfills its purpose with flying colors. The rods are somehow immediately sympathetic, as soon as you take one of them in your hand. This is due to the use of high-quality carbon mats, the ergonomic reel seats (Carbon Sensitive Grip for incredibly direct contact to the blank) and a perfect balance. Precise, living rods that are fun to fish. Both Casting and Spinning models are available in this series, always equipped with special SIC guides, which virtually exclude line tangles during casting. No matter if you're a Pike Addict or a Think Finesse Game fan, this big series really covers almost every area.
