

Gunki Baitcasting rod Yurai C

Gunki

Product number: GU-YRC

The successful Yurai series now also as baitcasters.

0,00 €* 0,00 €

The Yurai rods fully embody the Gunki philosophy: ultra-modern, high-tech rods, built to the latest knowledge and using the latest materials. Despite all the many advantages, these models offer an excellent price-performance ratio! Built with high carbon blanks and equipped with Fuji guides. With these rods you can feel the input of the Gunki test teams. This series covers almost every need and every model is as versatile as possible. Gunki has rigorously tested to achieve the perfect balance of power, manageability, precision and comfort. The result is a series of rods that are excellent for casting, crisp at the touch and let the angler feel every stick or handle, no matter which assembly you are fishing.

In the Yurai series there are now also these 5 casting models. The MH is perfect for wobblers, spinnerbaits or medium softbaits. The H to XXH are stronger, ideal for power fishing and larger baits.
