The Night Shadows S 198 UL XS Drop Shot is a true gem. Incredibly lightweight, paired with a fast and reactive blank, perfect for finesse on bass and drop shot in particular. Soil structures and changes are transmitted immediately when you scan the ground with a drop shot assembly. Every cautious bite is displayed, more fish on the hook are the result. This model is designed for anglers who just want the best. Built with top quality FUJI components: Alconite K anti-tangle guides and VSS reel seat. Delivery in the embroidered case.
