Jenzi Catfish Rod Siluro Special Baitmaster 2.0

A new generation of catfish rods designed for river fishing in Germany, France, and Spain.

The revolutionary Baitmaster now has an evolutionary successor: The BM 2.0 – and she's got it! Much lighter, most unique, stronger than ever with a progressive modern age design. All of this in proven Siluro special quality.

- Perfect handling
- Unusual torque
- Ergonomic
- SIC guides
- High durability
- High unbreakability
- More safety when fighting with the really big ones

HM Fiber system: SILURO SPECIAL Baitmaster rods are built using HM-fiber. The Baitmaster is produced with HM-fiber (carbon) using a multi-directional construction (similar to a weaved carpet) and its highly durable matrix (laminated structure) making for an enormous stability. This makes this rod virtually.
