Jenzi

Product number: JE-SLS-UVT

Extreme strong catfish spin rod with an extreme tight backbone.

from 97,99 €* 97,99 €

Based on Jenzi's experience in more than 20 years of rod construction, more than 10 years of catfish rod making and closely associated with over 30 years of fishing experience of Jenzi team anglers Armin Adam and Benno Korak - the Unique Catfish rod series has been developed. After many hours of work on the design and a vast number of sample rods that had to be made, Jenzi has managed to meet the high expectations of the teamers and to create a very special rod series. However, the best description for this new rod series is the name "Unique". It should be unique and special, and that's what it's all about.

Spin fishing on catfish is becoming increasingly popular and, thanks to good stocks, more and more successful. When choosing the components and the blanks, Jenzi relied on the experience of the team anglers. The Unique Spin features a highly densed and lightweight carbon blank, which has a firmer backbone. Stable and tangle-free rings as well as a proven reel seat complete this rod into a powerhouse.

Tip: The Jenzi team anglers swear on the Rivershad in 20cm while spin fishing on catfish.
