

Jenzi Spinning Rod Avalon Chebu Spin ML 2-20g

Jenzi

Product number: JE-AVLCS-ML

Specially designed rod for fishing with Cheburashka leads.

from 59,99 €* 59,99 €

The Avalon Chebu Spin was developed with the beloved Cheburashka sinker in mind. This rod provides as much flexibility as its name! Due to the broad range of various casting weights, it is possible to fish with many different Chebus on the same rod. The fast blank not only provides for excellent casting, but its sensitive tip assures much joy in the drill. Its well-mounted and lightweight Minimum Style Line Guides reduce the weight of the rod. The high quality EVA handle sits comfortably in the hand and provides enough traction for every situation. With a Cheburashka, a dropshot rig or classic jig head, the sensitive tip action provides for an excellent bait contact and presentation.

Features:

- ML Medium Light version with blue, M Medium version with red decor
- Minimum Style Line guides - extremely light
- Slender High Module Carbon Blank
- High quality EVA grip
- Fast FTR action
- Emotive tip action
