This rod is a worthy addition to our series of travel rods. The Nordic Seamaster is a lightweight travel rod with a very short transport-length. Special care was taken to insure that this rod is able to fit into every standard size luggage case. The compact transport-length does not in any way limit its performance. The sensitive blank has high power reserves, yet is flexible enough to wrestle in a good fish with ease. This rod is the perfect choice when you are needing to avoid an additional luggage item.

Features:

- Stabile SIC guides
- High Module Carbon-Blank
- Tip action with powerful spine
- 3 or 4 sections
