Jenzi Spinning Rod Tycoon Spin: ...for the wide range of artificial lure fishing. Due to the arrangement of carbon fibers in alternating weft direction (carbon fiber pattern) this enormously powerful fishing rods are able to combine functionality and ease of use. High density EVA handle material in combination with an elegant reel seat provides a relaxed and fatigue-free fishing experience in an almost limitless range of applications.

- Dream rods made of 100% carbon material
- High density EVA handle segments
- LST quality rings for precise line guide
- Short handle – for fatigue-free fishing experience
- A masterpiece among spinning rods
