Product number: ZK-BJS

Each Uli Beyer Special Baitjigger rod is equipped with a top-scraped Fuji reel seat VSS/#16, a Fuji SIC ring with stainless steel frame, as well as a robust hook holder. Delivery incl. high quality neoprene liner.

from 269,95 €* 269,95 €

The Baitigger rods have almost legendary status. We are completely relaunching the rod series together with Uli Beyer. The modern blanks are absolutely state of the art. Extremely sensitive blanks that are very light, yet robust and strong. This is exactly how rods for pike fishing (and also for zander fishing) have to be. Uli and his guests were enthusiastic about the sample rods right from the start. In the last few months, they have already caught numerous big fish with the various models. The rods are equipped with three balancing weights of 12 g each at the rear end of the handle. We developed this system together with our supplier because we were not satisfied with the hold of the rod weights available on the market so far. Of course, we have also fitted Fuji SIC rings to the high-quality Baitjigger rods. In addition to the robust and firmly installed hook eye, there is also an unobtrusive 1m marker as a further highlight. This allows a metre pike to be quickly identified by simply holding on to the rod (1m binding to the lower edge of the cork handle before the balance weights or end cap comes = 100 cm).
